2021 ALASKA

7, 12, & 14 Night Adventures | May - Sep 2021

Life on the outside on our 22-86 passenger small-boats. Our Alaska cruises deliver adventure, action, exploration, and the unexpected—paddling and hiking, calving glaciers, Glacier Bay National Park, bears, whales, and polar plunges. Nobody does Alaska better.

From our May, Southeast Alaska awakens. Bears, baby animals, migrating grey whales and birds, budding forests, snow-covered peaks, gushing waterfalls, and Aurora Borealis sightings can be part of your experience. Plus, it's crowd-free.

Long days of Alaska summers mean extra playtime. Temps are warmer, so there's better access to higher elevation hikes. And humpbacks are back en masse. Come summer's end and into early fall, wildlife gets busy—mating, migrating, and feeding up for winter.
